ComsystoReply

**Dear ComsystoReply,**

With this letter, I would like to express my interest in joining ecx.io team, on behalf of RIT Croatia.

I am currently in my third year of WMC in RIT Croatia. I have been interested to further my knowledge towards front-end development. I am a student from Kosovo which is trying to gain professional experience. I recognize the importance of your work and I would be delighted to be able to join ComsystoReply.

I am more than motivated to finish the internship in your company. The experience that your internship can give me, will be competitive in my junior developer years. I am passionate to learn and develop new skills. Currently, I am in Zagreb and looking for internships.

My language of communication is English, I integrate easily into teams and I look forward to being into a professional job setting. This internship will prove beneficial for you as a company and me as a student with real challenges.

Yours sincerely,

Jon Kutllovci
